

MYSTIC DISCIPLINES

Question	Answer
1. What is the main purpose of the study?	The main purpose of the study is to investigate the effect of the independent variable on the dependent variable.
2. What are the independent and dependent variables?	The independent variable is the variable that is manipulated or changed by the researcher. The dependent variable is the variable that is measured or observed.
3. What is the research hypothesis?	The research hypothesis is a statement that predicts the outcome of the study.
4. What are the research objectives?	The research objectives are the specific goals or aims of the study.
5. What is the significance of the study?	The significance of the study is the importance or value of the research findings.
6. What are the limitations of the study?	The limitations of the study are the factors that may affect the validity or generalizability of the findings.
7. What are the conclusions of the study?	The conclusions of the study are the final findings or results of the research.
8. What are the implications of the study?	The implications of the study are the practical or theoretical applications of the findings.
9. What are the future research directions?	The future research directions are the areas or topics that need further investigation.
10. What are the references of the study?	The references of the study are the sources of information used in the research.
